

# **PHYSICS OF THE EARTH**

**Third Edition**

## **Frank D. Stacey**

Physics Department  
University of Queensland  
Brisbane 4072  
Australia

Brookfield Press,  
GPO Box 738, Kenmore, Brisbane 4069, Australia

# CONTENTS

<b>Preface</b>	v
<b>1. THE SOLAR SYSTEM</b>	
1.1 An overview	1
1.2 The planets	4
1.2.1 Planetary orbits: the Titius-Bode law	4
1.2.2 Axial rotations	7
1.2.3 Distribution of angular momentum	8
1.2.4 Satellites	10
1.2.5 Asteroids	11
1.3 Meteorites	12
1.3.1 Falls, finds and orbits	12
1.3.2 Irons and stony-irons	15
1.3.3 Ordinary and carbonaceous chondrites	19
1.3.4 Achondrites	21
1.3.5 Cosmic ray exposures of meteorites	22
1.3.6 Magnetism in meteorites	24
1.3.7 Tektites	27
1.3.8 Comets and meteors	28
1.4 The terrestrial planets: some comparisons	29
1.4.1 Composition of the Earth: comparisons with meteorites and the solar atmosphere	29
1.4.2 Mean densities, moments of inertia and inferred structures	32
1.4.3 The Moon	35
1.4.4 The core and mantle of the Earth	36
1.4.5 Planetary atmospheres	38

## 2. RADIOACTIVITY, ISOTOPES AND DATING

2.1 An overview	41
2.2 The pre-radioactivity age problem	42
2.2.1 Energy and life-time of the Sun	42
2.2.2 A reconsideration of Kelvin's cooling Earth model	44
2.3 Radioactive elements and the principles of dating	45
2.3.1 Natural radioactivity	45
2.3.2 A decay clock: $^{14}\text{C}$ dating	47
2.3.3 An accumulation clock: K-Ar dating	48
2.3.4 The use of isochrons: Rb-Sr dating	50
2.3.5 U-Pb and Pb-Pb methods	53
2.3.6 The $^{147}\text{Sm}$ - $^{143}\text{Nd}$ decay	55
2.3.7 Fission tracks	56
2.4 Isotopes and global history	58
2.4.1 The meteorite isochrons and the age of the Earth	58
2.4.2 Argon and helium outgassing	62
2.4.3 Growth of the continents	65
2.4.4 Heterogeneity of the mantle	68
2.5 Isotopic anomalies and variations	72
2.5.1 Dating the heavy elements: orphaned decay products	72
2.5.2 Isotopic heterogeneity: pre-history of the solar system	74
2.5.3 Isotopic fractionation	75

## 3. ROTATION, GRAVITY AND TIDES

3.1 An overview	82
3.2 Ellipticity and the latitude variation of gravity	86
3.2.1 Gravitational potential due to a nearly spherical body	86
3.2.2 Rotation, ellipticity and gravity	89
3.2.3 The approach to equilibrium flattening	95
3.3 Precession, wobble and irregular rotation	98
3.3.1 Precession of the equinoxes	98
3.3.2 Coupling of the core to the precession and nutations	102

## 4. SEISMICITY AND SEISMOLOGY

4.1 An overview	4.1
4.2 The mechanics of seismic waves	4.1
4.2.1 The wave equation	4.1
4.2.2 Seismic wave propagation	4.1
4.2.3 Seismic wave dispersion	4.1
4.3 The techniques of seismology	4.3
4.3.1 Seismometers	4.3
4.3.2 Seismic wave recording	4.3
4.3.3 Seismic wave analysis	4.3
4.4 Seismic sources	4.4
4.4.1 Volcanoes	4.4
4.4.2 Earthquakes	4.4

## 5. SEISMIC WAVES

5.1 An overview	5.2
5.2 Elastic waves	5.2
5.2.1 The wave equation	5.2
5.2.2 Seismic wave propagation	5.2
5.2.3 Seismic wave dispersion	5.2

3.3.3 The Chandler wobble	105
3.3.4 Length-of-day (LOD) fluctuations	108
3.3.5 Excitation and damping of the wobble	110
3.4 Tides and Tidal friction	115
3.4.1 Tidal deformation of the Earth	115
3.4.2 Tidal friction	120
3.4.3 Evolution of the lunar orbit	124
3.4.4 The Roche limit for tidal stability of the Moon	129
3.5 The geoid and isostatic compensation	134
3.5.1 The satellite geoid	134
3.5.2 The principle of isostasy	140
3.5.3 Post glacial isostatic adjustment	145

#### **4. SEISMICITY AND THE PATTERN OF CRUSTAL MOTION**

4.1 An overview	155
4.2 The mechanics of earthquakes	159
4.2.1 Stress, strain and earthquake displacements	159
4.2.2 Magnitudes, moments and energies	166
4.2.3 Earthquake mechanisms and the spectra of seismic waves	172
4.2.4 The earthquake prediction problem	180
4.2.5 First motion studies	182
4.2.6 Seismic moments and the Chandler wobble	185
4.3 The tectonic pattern	188
4.3.1 Wadati-Benioff zones and subduction	188
4.3.2 Spreading centres and magnetic lineations	192
4.3.3 Plate motions and hot spot traces	197
4.4 Seismic effects due to the sea	202
4.4.1 Tsunamis	202
4.4.2 Microseisms	204

#### **5. SEISMIC WAVES AND THE STRUCTURE OF THE EARTH**

5.1 An overview	207
5.2 Elastic waves and seismic rays	212
5.2.1 Body waves	212
5.2.2 Surface waves	213

5.2.3 Free oscillations	217	6.4 The t
5.2.4 Seismic rays, refraction and reflection	224	6
5.2.5 Attenuation	226	6
5.2.6 Frequency dependent elasticity and the dispersion of body waves	231	6
5.3 Body wave travel times and velocity structure	234	6
5.3.1 Refraction in a layered flat Earth model	234	6
5.3.2 Refraction in a spherically layered Earth	238	6
5.3.3 Travel times and velocity distribution	243	6
5.4 Earth models	249	6
5.4.1 Density variation within a chemically homogeneous layer	249	6
5.4.2 Internal structure of the Earth: the broad picture	250	6
5.4.3 Lateral heterogeneity	254	6
5.4.4 Boundaries and discontinuities	255	6
5.5 Properties of deep Earth materials	257	6
5.5.1 Finite strain: the theory of strong compressions	257	6
5.5.2 Shear waves, rigidity modulus and the interpretation of deep mantle tomography	264	6
5.5.3 High pressure experiments	271	6
5.5.4 Extrapolated zero pressure properties and material identification	277	6
<b>6. INTERNAL HEAT AND THE TECTONIC ENGINE</b>		
6.1 An overview	285	6.7 The co
6.2 The surface heat flux	287	6
6.2.1 Conducted heat and the temperature gradient	287	6
6.2.2 Effect of climatic changes	288	6
6.2.3 The continental heat flux	291	6
6.2.4 The oceanic heat flux	293	6
6.2.5 Thickness of the lithosphere	296	6
6.3 The heat budget	298	7.1 An ov
6.3.1 Radiogenic heat	298	7.2 The m
6.3.2 Minor components of the heat budget	303	7.1
<b>7. GEOMAGNETISM</b>		
7.1 An overview	305	7.1
7.2 The magnetic field	306	7.1
7.2.1 The origin of the Earth's magnetic field	306	7.1
7.2.2 The variation of the magnetic field over time	310	7.1
7.2.3 The variation of the magnetic field over space	314	7.1
7.3 Magnetic minerals	317	7.1
7.3.1 Magnetite	317	7.1
7.3.2 Other magnetic minerals	320	7.1
7.4 Magnetic anomalies	323	7.1
7.4.1 Magnetic anomalies in the oceanic crust	323	7.1
7.4.2 Magnetic anomalies in the continental crust	326	7.1
7.5 Magnetic methods in geology	331	7.1
7.5.1 Magnetic methods in structural geology	331	7.1
7.5.2 Magnetic methods in tectonics	333	7.1
7.5.3 Magnetic methods in petrology	335	7.1
7.5.4 Magnetic methods in mineralogy	337	7.1
7.5.5 Magnetic methods in geochemistry	339	7.1
7.5.6 Magnetic methods in hydrogeology	341	7.1
7.5.7 Magnetic methods in environmental geology	343	7.1
7.5.8 Magnetic methods in paleogeography	345	7.1
7.5.9 Magnetic methods in paleomagnetism	347	7.1
7.5.10 Magnetic methods in geomagnetism	349	7.1
7.6 Magnetic minerals in the environment	351	7.1
7.6.1 Magnetic minerals in soils	351	7.1
7.6.2 Magnetic minerals in sediments	353	7.1
7.6.3 Magnetic minerals in groundwater	355	7.1
7.6.4 Magnetic minerals in lakes	357	7.1
7.6.5 Magnetic minerals in ice	359	7.1
7.6.6 Magnetic minerals in the atmosphere	361	7.1
7.7 Magnetic minerals in the biosphere	363	7.1
7.7.1 Magnetic minerals in plants	363	7.1
7.7.2 Magnetic minerals in animals	365	7.1
7.7.3 Magnetic minerals in humans	367	7.1
7.8 Magnetic minerals in the lithosphere	369	7.1
7.8.1 Magnetic minerals in the upper mantle	369	7.1
7.8.2 Magnetic minerals in the lower mantle	371	7.1
7.8.3 Magnetic minerals in the core	373	7.1
7.9 Magnetic minerals in the hydrosphere	375	7.1
7.9.1 Magnetic minerals in rivers	375	7.1
7.9.2 Magnetic minerals in lakes	377	7.1
7.9.3 Magnetic minerals in oceans	379	7.1
7.10 Magnetic minerals in the atmosphere	381	7.1
7.10.1 Magnetic minerals in the troposphere	381	7.1
7.10.2 Magnetic minerals in the stratosphere	383	7.1
7.11 Magnetic minerals in the biosphere	385	7.1
7.11.1 Magnetic minerals in plants	385	7.1
7.11.2 Magnetic minerals in animals	387	7.1
7.11.3 Magnetic minerals in humans	389	7.1
7.12 Magnetic minerals in the lithosphere	391	7.1
7.12.1 Magnetic minerals in the upper mantle	391	7.1
7.12.2 Magnetic minerals in the lower mantle	393	7.1
7.12.3 Magnetic minerals in the core	395	7.1
7.13 Magnetic minerals in the hydrosphere	397	7.1
7.13.1 Magnetic minerals in rivers	397	7.1
7.13.2 Magnetic minerals in lakes	399	7.1
7.13.3 Magnetic minerals in oceans	401	7.1
7.14 Magnetic minerals in the atmosphere	403	7.1
7.14.1 Magnetic minerals in the troposphere	403	7.1
7.14.2 Magnetic minerals in the stratosphere	405	7.1
7.15 Magnetic minerals in the biosphere	407	7.1
7.15.1 Magnetic minerals in plants	407	7.1
7.15.2 Magnetic minerals in animals	409	7.1
7.15.3 Magnetic minerals in humans	411	7.1
7.16 Magnetic minerals in the lithosphere	413	7.1
7.16.1 Magnetic minerals in the upper mantle	413	7.1
7.16.2 Magnetic minerals in the lower mantle	415	7.1
7.16.3 Magnetic minerals in the core	417	7.1
7.17 Magnetic minerals in the hydrosphere	419	7.1
7.17.1 Magnetic minerals in rivers	419	7.1
7.17.2 Magnetic minerals in lakes	421	7.1
7.17.3 Magnetic minerals in oceans	423	7.1
7.18 Magnetic minerals in the atmosphere	425	7.1
7.18.1 Magnetic minerals in the troposphere	425	7.1
7.18.2 Magnetic minerals in the stratosphere	427	7.1
7.19 Magnetic minerals in the biosphere	429	7.1
7.19.1 Magnetic minerals in plants	429	7.1
7.19.2 Magnetic minerals in animals	431	7.1
7.19.3 Magnetic minerals in humans	433	7.1
7.20 Magnetic minerals in the lithosphere	435	7.1
7.20.1 Magnetic minerals in the upper mantle	435	7.1
7.20.2 Magnetic minerals in the lower mantle	437	7.1
7.20.3 Magnetic minerals in the core	439	7.1
7.21 Magnetic minerals in the hydrosphere	441	7.1
7.21.1 Magnetic minerals in rivers	441	7.1
7.21.2 Magnetic minerals in lakes	443	7.1
7.21.3 Magnetic minerals in oceans	445	7.1
7.22 Magnetic minerals in the atmosphere	447	7.1
7.22.1 Magnetic minerals in the troposphere	447	7.1
7.22.2 Magnetic minerals in the stratosphere	449	7.1
7.23 Magnetic minerals in the biosphere	451	7.1
7.23.1 Magnetic minerals in plants	451	7.1
7.23.2 Magnetic minerals in animals	453	7.1
7.23.3 Magnetic minerals in humans	455	7.1
7.24 Magnetic minerals in the lithosphere	457	7.1
7.24.1 Magnetic minerals in the upper mantle	457	7.1
7.24.2 Magnetic minerals in the lower mantle	459	7.1
7.24.3 Magnetic minerals in the core	461	7.1
7.25 Magnetic minerals in the hydrosphere	463	7.1
7.25.1 Magnetic minerals in rivers	463	7.1
7.25.2 Magnetic minerals in lakes	465	7.1
7.25.3 Magnetic minerals in oceans	467	7.1
7.26 Magnetic minerals in the atmosphere	469	7.1
7.26.1 Magnetic minerals in the troposphere	469	7.1
7.26.2 Magnetic minerals in the stratosphere	471	7.1
7.27 Magnetic minerals in the biosphere	473	7.1
7.27.1 Magnetic minerals in plants	473	7.1
7.27.2 Magnetic minerals in animals	475	7.1
7.27.3 Magnetic minerals in humans	477	7.1
7.28 Magnetic minerals in the lithosphere	479	7.1
7.28.1 Magnetic minerals in the upper mantle	479	7.1
7.28.2 Magnetic minerals in the lower mantle	481	7.1
7.28.3 Magnetic minerals in the core	483	7.1
7.29 Magnetic minerals in the hydrosphere	485	7.1
7.29.1 Magnetic minerals in rivers	485	7.1
7.29.2 Magnetic minerals in lakes	487	7.1
7.29.3 Magnetic minerals in oceans	489	7.1
7.30 Magnetic minerals in the atmosphere	491	7.1
7.30.1 Magnetic minerals in the troposphere	491	7.1
7.30.2 Magnetic minerals in the stratosphere	493	7.1
7.31 Magnetic minerals in the biosphere	495	7.1
7.31.1 Magnetic minerals in plants	495	7.1
7.31.2 Magnetic minerals in animals	497	7.1
7.31.3 Magnetic minerals in humans	499	7.1
7.32 Magnetic minerals in the lithosphere	501	7.1
7.32.1 Magnetic minerals in the upper mantle	501	7.1
7.32.2 Magnetic minerals in the lower mantle	503	7.1
7.32.3 Magnetic minerals in the core	505	7.1
7.33 Magnetic minerals in the hydrosphere	507	7.1
7.33.1 Magnetic minerals in rivers	507	7.1
7.33.2 Magnetic minerals in lakes	509	7.1
7.33.3 Magnetic minerals in oceans	511	7.1
7.34 Magnetic minerals in the atmosphere	513	7.1
7.34.1 Magnetic minerals in the troposphere	513	7.1
7.34.2 Magnetic minerals in the stratosphere	515	7.1
7.35 Magnetic minerals in the biosphere	517	7.1
7.35.1 Magnetic minerals in plants	517	7.1
7.35.2 Magnetic minerals in animals	519	7.1
7.35.3 Magnetic minerals in humans	521	7.1
7.36 Magnetic minerals in the lithosphere	523	7.1
7.36.1 Magnetic minerals in the upper mantle	523	7.1
7.36.2 Magnetic minerals in the lower mantle	525	7.1
7.36.3 Magnetic minerals in the core	527	7.1
7.37 Magnetic minerals in the hydrosphere	529	7.1
7.37.1 Magnetic minerals in rivers	529	7.1
7.37.2 Magnetic minerals in lakes	531	7.1
7.37.3 Magnetic minerals in oceans	533	7.1
7.38 Magnetic minerals in the atmosphere	535	7.1
7.38.1 Magnetic minerals in the troposphere	535	7.1
7.38.2 Magnetic minerals in the stratosphere	537	7.1
7.39 Magnetic minerals in the biosphere	539	7.1
7.39.1 Magnetic minerals in plants	539	7.1
7.39.2 Magnetic minerals in animals	541	7.1
7.39.3 Magnetic minerals in humans	543	7.1
7.40 Magnetic minerals in the lithosphere	545	7.1
7.40.1 Magnetic minerals in the upper mantle	545	7.1
7.40.2 Magnetic minerals in the lower mantle	547	7.1
7.40.3 Magnetic minerals in the core	549	7.1
7.41 Magnetic minerals in the hydrosphere	551	7.1
7.41.1 Magnetic minerals in rivers	551	7.1
7.41.2 Magnetic minerals in lakes	553	7.1
7.41.3 Magnetic minerals in oceans	555	7.1
7.42 Magnetic minerals in the atmosphere	557	7.1
7.42.1 Magnetic minerals in the troposphere	557	7.1
7.42.2 Magnetic minerals in the stratosphere	559	7.1
7.43 Magnetic minerals in the biosphere	561	7.1
7.43.1 Magnetic minerals in plants	561	7.1
7.43.2 Magnetic minerals in animals	563	7.1
7.43.3 Magnetic minerals in humans	565	7.1
7.44 Magnetic minerals in the lithosphere	567	7.1
7.44.1 Magnetic minerals in the upper mantle	567	7.1
7.44.2 Magnetic minerals in the lower mantle	569	7.1
7.44.3 Magnetic minerals in the core	571	7.1
7.45 Magnetic minerals in the hydrosphere	573	7.1
7.45.1 Magnetic minerals in rivers	573	7.1
7.45.2 Magnetic minerals in lakes	575	7.1
7.45.3 Magnetic minerals in oceans	577	7.1
7.46 Magnetic minerals in the atmosphere	579	7.1
7.46.1 Magnetic minerals in the troposphere	579	7.1
7.46.2 Magnetic minerals in the stratosphere	581	7.1
7.47 Magnetic minerals in the biosphere	583	7.1
7.47.1 Magnetic minerals in plants	583	7.1
7.47.2 Magnetic minerals in animals	585	7.1
7.47.3 Magnetic minerals in humans	587	7.1
7.48 Magnetic minerals in the lithosphere	589	7.1
7.48.1 Magnetic minerals in the upper mantle	589	7.1
7.48.2 Magnetic minerals in the lower mantle	591	7.1
7.48.3 Magnetic minerals in the core	593	7.1
7.49 Magnetic minerals in the hydrosphere	595	7.1
7.49.1 Magnetic minerals in rivers	595	7.1
7.49.2 Magnetic minerals in lakes	597	7.1
7.49.3 Magnetic minerals in oceans	599	7.1
7.50 Magnetic minerals in the atmosphere	601	7.1
7.50.1 Magnetic minerals in the troposphere	601	7.1
7.50.2 Magnetic minerals in the stratosphere	603	7.1
7.51 Magnetic minerals in the biosphere	605	7.1
7.51.1 Magnetic minerals in plants	605	7.1
7.51.2 Magnetic minerals in animals	607	7.1
7.51.3 Magnetic minerals in humans	609	7.1
7.52 Magnetic minerals in the lithosphere	611	7.1
7.52.1 Magnetic minerals in the upper mantle	611	7.1
7.52.2 Magnetic minerals in the lower mantle	613	7.1
7.52.3 Magnetic minerals in the core	615	7.1
7.53 Magnetic minerals in the hydrosphere	617	7.1
7.53.1 Magnetic minerals in rivers	617	7.1
7.53.2 Magnetic minerals in lakes	619	7.1
7.53.3 Magnetic minerals in oceans	621	7.1
7.54 Magnetic minerals in the atmosphere	623	7.1
7.54.1 Magnetic minerals in the troposphere	623	7.1
7.54.2 Magnetic minerals in the stratosphere	625	7.1
7.55 Magnetic minerals in the biosphere	627	7.1
7.55.1 Magnetic minerals in plants	627	7.1
7.55.2 Magnetic minerals in animals	629	7.1
7.55.3 Magnetic minerals in humans	631	7.1
7.56 Magnetic minerals in the lithosphere	633	7.1
7.56.1 Magnetic minerals in the upper mantle	633	7.1
7.56.2 Magnetic minerals in the lower mantle	635	7.1
7.56.3 Magnetic minerals in the core	637	7.1
7.57 Magnetic minerals in the hydrosphere	639	7.1
7.57.1 Magnetic minerals in rivers	639	7.1
7.57.2 Magnetic minerals in lakes	641	7.1
7.57.3 Magnetic minerals in oceans	643	7.1
7.58 Magnetic minerals in the atmosphere	645	7.1
7.58.1 Magnetic minerals in the troposphere	645	7.1
7.58.2 Magnetic minerals in the stratosphere	647	7.1
7.59 Magnetic minerals in the biosphere	649	7.1
7.59.1 Magnetic minerals in plants	649	7.1
7.59.2 Magnetic minerals in animals	651	7.1
7.59.3 Magnetic minerals in humans	653	7.1
7.60 Magnetic minerals in the lithosphere	655	7.1
7.60.1 Magnetic minerals in the upper mantle	655	7.1
7.60.2 Magnetic minerals in the lower mantle	657	7.1
7.60.3 Magnetic minerals in the core	659	7.1
7.61 Magnetic minerals in the hydrosphere	661	7.1
7.61.1 Magnetic minerals in rivers	661	7.1
7.61.2 Magnetic minerals in lakes	663	7.1
7.61.3 Magnetic minerals in oceans	665	7.1
7.62 Magnetic minerals in the atmosphere	667	7.1
7.62.1 Magnetic minerals in the troposphere	667	7.1
7.62.2 Magnetic minerals in the stratosphere	669	7.1
7.63 Magnetic minerals in the biosphere	671	7.1
7.63.1 Magnetic minerals in plants	671	7.1
7.63.2 Magnetic minerals in animals	673	7.1
7.63.3 Magnetic minerals in humans	675	7.1
7.64 Magnetic minerals in the lithosphere	677	7.1
7.64.1 Magnetic minerals in the upper mantle	677	7.1
7.64.2 Magnetic minerals in the lower mantle	679	7.1
7.64.3 Magnetic minerals in the core	681	7.1
7.65 Magnetic minerals in the hydrosphere	683	7.1
7.65.1 Magnetic minerals in rivers	683	7.1
7.65.2 Magnetic minerals in lakes	685	7.1
7.65.3 Magnetic minerals in oceans	687	7.1
7.66 Magnetic minerals in the atmosphere	689	7.1
7.66.1 Magnetic minerals in the troposphere	689	7.1
7.66.2 Magnetic minerals in the stratosphere	691	7.1
7.67 Magnetic minerals in the biosphere	693	7.1
7.67.		

6.4 The thermodynamics of convection	303
6.4.1 The adiabatic gradient	303
6.4.2 The mantle as a heat engine	305
6.4.3 The influence of phase transitions	308
6.4.4 Numerical results	309
6.5 Convective regime of the mantle	311
6.5.1 Stress, energy dissipation and viscosity	311
6.5.2 Mechanics of subduction	313
6.5.3 Whole mantle convection	315
6.5.4 The pattern of mantle convection	316
6.5.5 Plumes and the D'' layer	317
6.6 Thermal history of the mantle	321
6.6.1 Self-regulation of convection	321
6.6.2 The heat balance equation	322
6.6.3 The variation of convected heat with mantle temperature	324
6.6.4 Numerical results	326
6.6.5 Present mantle temperatures	328
6.7 The cooling of the core	329
6.7.1 Core cooling and the geomagnetic field	329
6.7.2 The adiabatic gradient and conducted heat	330
6.7.3 Energy of compositional convection	332
6.7.4 Energy balance of the core	333
6.7.5 Constancy of the core-to-mantle heat flux	338

## 7. GEOMAGNETISM AND PALEOMAGNETISM

7.1 An overview	339
7.2 The main field	344
7.2.1 The pattern of the field	344
7.2.2 Secular variation	355
7.2.3 Electrical conduction in the core and mantle	363
7.2.4 The dynamo	368
7.2.5 Magnetic fields of other planets	378

7.3 Paleomagnetism	379	
7.3.1 Magnetism in rocks	379	
7.3.2 Secular variation and the axial dipole	383	
7.3.3 Reversals and paleointensities	387	
7.3.4 Polar wander and continental drift	394	
7.4 Crises and extinctions	400	
<b>APPENDIX A</b>	Reference data	403
<b>APPENDIX B</b>	Orbital dynamics (Kepler's laws)	415
<b>APPENDIX C</b>	Spherical harmonic functions	421
<b>APPENDIX D</b>	Elastic and inelastic properties	429
	D1 Elastic moduli of isotropic solids	429
	D2 Isothermal and adiabatic moduli	431
	D3 Uniaxial media (transverse isotropy)	435
	D4 Crystals	435
	D5 Fluid viscosity	436
	D6 Rheology of the mantle	438
<b>APPENDIX E</b>	A summary of elementary thermodynamics	441
	E1 Thermodynamic identities	443
	E2 The Grüneisen parameter	445
	E3 Heat engine efficiency	448
	E4 Melting: the Clausius-Clapeyron and Lindemann relationships	450
<b>APPENDIX F</b>	Selected details of the preliminary reference earth model (PREM)	453
<b>APPENDIX G</b>	Thermal parameters of the Earth	457
<b>APPENDIX H</b>	Radioactive isotopes	461
<b>APPENDIX I</b>	The geological time-scale	467
<b>APPENDIX J</b>	Problems	469
<b>References</b>		489
<b>Index</b>		501
