Contents

LIST OF CONTRIBUTORS	xi
PREFACE	xiii

Chapter 1 **Geomorphology of a Tectonically Active, Glaciated Coast, South-Central Alaska**

*Larry G. Ward, Thomas F. Moslow,
and Kenneth Finkelstein*

I. Introduction	2
II. Physical Setting	4
III. Coastal Geomorphology	7
IV. Coastal Sedimentary Environments	24
V. Summary	28
References	30

Chapter 2 **Fjord Sedimentation in Northern British Columbia**

S. B. McCann and R. A. Kostaschuk

I. Introduction	33
II. Controls on Fjord Development and Sedimentation	35
III. Burke Channel-North Bentinck Arm	39
References	48

Chapter 3 **Coarse-Grained Beach Sedimentation under Paraglacial Conditions, Canadian Atlantic Coast**

D. L. Forbes and R. B. Taylor

I. Introduction	52
II. Glaciation in Atlantic Canada	54
III. Postglacial Relative Sea Level and Tidal Adjustments	55
IV. Modern Oceanographic Environment	57

V.	Beach Morphology and Sediments—Selected Examples	59
VI.	Beach Development under Varying Sediment-Source Regimes	75
VII.	Beach Development under Varying Relative-Sea-Level Regimes	78
VIII.	Beach Development under Varying Dynamic Regimes	80
IX.	Conclusions	81
	References	82
Chapter 4	An Evolutionary Model for Transgressive Sedimentation on the Eastern Shore of Nova Scotia	
	<i>R. Boyd, A. J. Bowen, and R. K. Hall</i>	
I.	Introduction and Objectives	88
II.	Physical Processes	88
III.	Relative Sea Level	91
IV.	Coastal Geology	91
V.	Eastern Shore Processes and Morphology	93
VI.	Evolutionary Coastal Model	103
VII.	Discussion	111
VIII.	Conclusions	112
	References	113
Chapter 5	Holocene Evolution of the South-Central Coast of Iceland	
	<i>Dag Nummedal, Albert C. Hine, and Jon C. Boothroyd</i>	
I.	Introduction	116
II.	Glaciation	117
III.	Fluvioglacial Processes	121
IV.	Coastal Processes	132
V.	Shoreface and Continental Shelf	144
VI.	Conclusions	146
	References	148
Chapter 6	An Inventory of Coastal Environments and Classification of Maine's Glaciated Shoreline	
	<i>Joseph T. Kelley</i>	
I.	Introduction	151
II.	Coastal Climate	152
III.	Late Quaternary History	152
IV.	Bedrock Geology	156
V.	Methods	157

VI. Results	157
VII. Discussion	168
VIII. Summary	173
References	174

**Chapter 7 Quaternary Stratigraphy of Representative
Maine Estuaries: Initial Examination by High-
Resolution Seismic Reflection Profiling**

*Daniel F. Belknap, Joseph T. Kelley,
and R. Craig Shipp*

I. Introduction	178
II. Geologic Setting	180
III. Methods	185
IV. Discussion	194
V. Conclusions	202
References	203

**Chapter 8 Controls and Zonation of Geomorphology
along a Glaciated Coast, Gouldsboro Bay,
Maine**

*R. Craig Shipp, Stephanie A. Staples,
and Larry G. Ward*

I. Introduction	210
II. Physical Setting	211
III. Methods	213
IV. Geomorphic Classes	217
V. Controls of Coastal Geomorphology	220
VI. Geomorphic Zonation	224
VII. Conclusions	228
References	229

**Chapter 9 Sediment Accumulation Forms, Thompson
Island, Boston Harbor, Massachusetts**

Peter S. Rosen and Kenneth Leach

I. Introduction and Setting	234
II. South Cuspate Spit: Drift Convergence and the Initiation of a Tombolo	235
III. North Cuspate Spit: Migrating Spits and Gravel Ridge Forms	238
IV. South Longshore Spit: Gravel Overwash and Bar Emergence	242
V. Conclusions	248
References	249

**Chapter 10 Source of Pebbles at Mann Hill Beach,
Scituate, Massachusetts**
*Benno M. Brenninkmeyer and Adam F.
Nwankwo*

I. Introduction	252
II. Mann Hill Beach	255
III. Offshore Sediment	261
IV. Waves	265
V. Wave-Induced Sediment Transport	270
VI. Source of the Shingle on Mann Hill Beach	274
References	275

**Chapter 11 Shoreline Development of the Glacial Cape
Cod Coastline**
John J. Fisher

I. Introduction	280
II. Glacial Geology of Cape Cod	282
III. Coastal Geomorphology of Cape Cod	285
IV. Cape Cod's Fulcrum-Nodal Coastline	288
V. Fulcrum Cliffline Erosion	291
VI. Cape Cod Beach Sediment Patterns	293
VII. Barrier Beach Analogs of Cape Cod	299
VIII. Conclusion	302
References	304

**Chapter 12 Reworking of Glacial Outwash Sediments
along Outer Cape Cod: Development of
Provincetown Spit**
Stephen P. Leatherman

I. Introduction	308
II. Evolution of Provincetown Spit	313
III. Methodology	316
IV. Results	317
V. Summary and Conclusions	323
References	324

**Chapter 13 Development of the Northwestern Buzzards
Bay Shoreline, Massachusetts**
*Duncan M. FitzGerald, Christopher T.
Baldwin, Noor Azim Ibrahim, and David R.
Sands*

I. Introduction	328
II. Physical Setting	330
III. Bedrock and Glacial Geology	330
IV. Sediment Supply	332
V. Shoreline Components and Processes	335
VI. Discussion and Summary	353
References	355
