TABLE OF CONTENTS

Preface	vii
List of Contributors	xi
 Geochemistry of organic carbon in the ocean <i>E.A. Romankevich, A.A. Vetrov and G.A. Korneeva</i>	1
Primary production and decomposition of organic matter in coastal areas of the Northern Aral Sea, with special reference to land-sea interactions <i>M.I. Orlova</i>	29
Biogeochemistry of water and sediment in the Ob and Yenisey estuaries <i>Vyacheslav V. Gordeev</i>	49
The continental-ocean boundary as a marginal filter in the world oceans <i>A.P. Lisitzin</i>	69
Unjustifiably ignored: reflections on the role of benthos in marine ecosystems <i>W.E. Arntz, J.M. Gili and K. Reise</i>	105
Understanding small-scale processes controlling the bioavailability of organic contaminants to deposit-feeding benthos <i>Thomas L. Forbes</i>	125
The role of the marine gastropod <i>Cerithium vulgatum</i> in the biogeochemical cycling of metals <i>A. Nicolaidou and J.A. Nott</i>	137
Changes in macrozoobenthos communities induced by anthropogenic eutrophication of the Gulf of Gdansk <i>A. Szaniawska, U. Janas and M. Normant</i>	147
Do benthic animals control the particle exchange between bioturbated sediments and benthic turbidity zones? <i>G. Graf</i>	153
Impact of catchment land-use on an estuarine benthic food web <i>D. Raffaelli</i>	161
