Chapter 1

Historical Overview of Breast Surgery

Chapter 2

Anatomy

2.1	Surface Anatomy of the Breast	7
2.2	Breast Development	8
2.3	Organization of the Ductal-Lobular System and its Diseases	10
2.4	Blood Supply of the Breast	11
2.5	Anatomy of the Axilla	12
2.6	Latissimus Dorsi Muscle and Related Muscles	13
2.7	Anterior View of Latissimus Dorsi Muscle and Blood Supply (Pectoralis Major Muscle Removed) . .	14
2.8	Anterior Abdominal Wall and Blood Supply	15

Chapter 3

Diagnostic Procedures

3.1	Fine Needle Aspiration	19
3.2	Core Needle Biopsy	22
3.3	Overview of Biopsy Techniques	30
3.4	Needle-Localized Biopsy	33
3.5	Microductectomy	37
3.6	Subareolar Dissection	39
3.7	Mammary Ductoscopy	40

Chapter 4

Surgery for Benign Breast Diseases

4.1	Cyst Aspiration	43
4.2	Excision of Intraductal Papilloma	45
4.3	Excision of Giant Fibroadenoma	46
4.4	Drainage of a Breast Abscess	47
4.5	Surgical Management of Gynecomastia	50

Chapter 5

Biopsy Procedures

5.1	Incision Lines for Excisional Biopsy	55
5.2	Variants of Incisions and Extent of Breast Cancer Surgery	57
5.3	Lumpectomy (Wide Excision)	59
5.4	Specimen Management for the Pathologist	60

Chapter 6

Surgery for Breast Carcinoma

6.1	Modified Radical Mastectomy	61
6.2	Simple Mastectomy	67
6.3	Breast-Conserving Cancer Surgery	67
6.4	Axillary Lymph Node Dissection (Level I, Level II, Level III)	78
6.5	Sentinel Lymph Node Biopsy	81
6.6	Internal Mammary Node Biopsy	83
6.7	Venous Access for Chemotherapy	83
	References	84

Chapter 7**Plastic and Reconstructive Breast Surgery**

7.1	Immediate and Delayed Breast Reconstruction	85	7.11	Thoracoepigastric Cutaneous Flap for Large Thoracic Wall Defects	111
7.2	Placement of Definitive Prosthesis	85	7.12	Partial (or Total) Reconstruction with Omental Flaps	112
7.3	Breast Reconstruction with Expander	91	7.13	Reduction Mammoplasty	113
7.4	Hypothesis to Explain Capsular Contracture	93	7.14	Reduction Mammoplasty: Vertical Technique (Lejour)	115
7.5	Suspension Technique (Advancement Abdominal Flap)	94	7.15	Reduction Mammoplasty: Inferior Pedicle Technique	117
7.6	Latissimus Dorsi Flap	96	7.16	Round Block Technique of Reduction Mammoplasty	119
7.7	Total Breast Reconstruction with a Totally De-epithelialized Latissimus Dorsi Flap and Autologous Latissimus Flap	99	7.17	Breast Ptosis Classification	121
7.8	Latissimus Dorsi Flap to Repair Glandular Defects Following Quadrantectomy	100	7.18	Mastopexy	122
7.9	Pedicle TRAM Flap Reconstruction	101	7.19	Round Block Technique for Mastopexy	122
7.9.1	Abdominal Closure	102	7.20	Mastopexy: Oblique Technique (DuFourmentel)	125
7.9.2	Free Flaps	103	7.21	Augmentation Mammoplasty	126
7.10	Nipple Reconstruction	109	7.22	Nipple Plasty for Inverted Nipple	129
				References	130
				Subject Index	131
